New York, January 14, 1924.

Mr. Howland Wood, Curator  
The American Numismatic Society  
156th Street & Broadway.  
New York City.

Dear Sir:

At a meeting held recently of the American Groupe of the Société des Architectes Diplômés par le Gouvernement Français the question of representation of our Medal in Numismatic Collections, private and public, was discussed and it was resolved, that: "the Medal might be donated to a recognized public collection approved by the Groupe."

The Executive Committee for whom I write was thereupon empowered to take up the matter with you as the Curator of the American Numismatic Society to ascertain whether the gift of this Medal, would be acceptable. The Medal is of bronze gilt, three inches in diameter, the work of Louis Bottée in the year 1896, and is of very fine workmanship.

As soon as I get from you the assurance that this matter receives the approval of the Governing Board of the Society I will have two of the Medals delivered to you so that it can be exhibited with both sides showing in the case.

Very respectfully yours,

*Edwin H. Denby*  
Secretary.
